----------	------	----------	------

Total distance covered - 105.6 km.

Update Lead Location

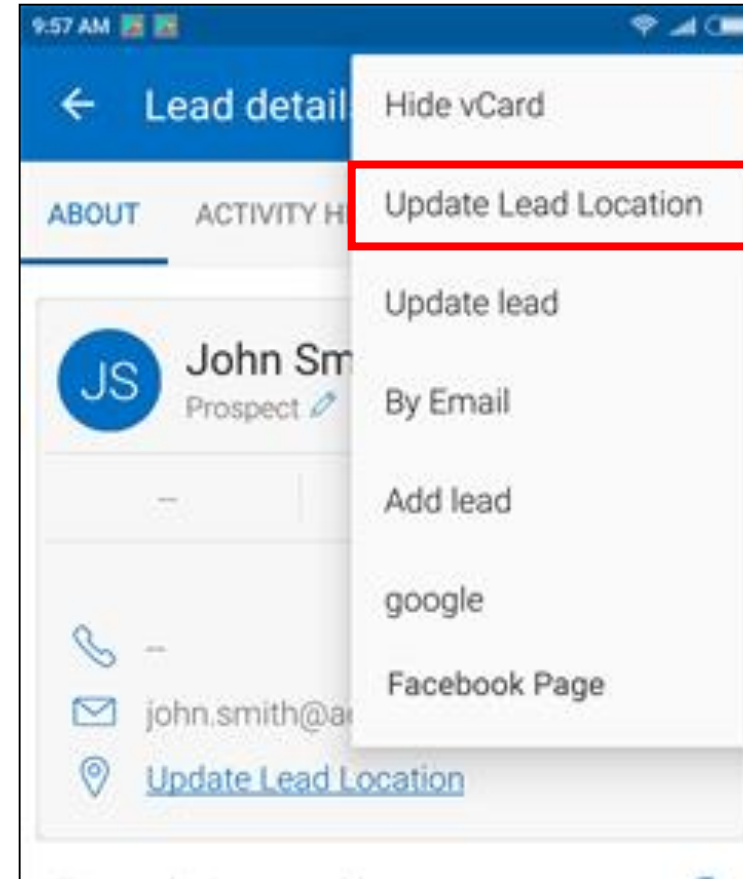

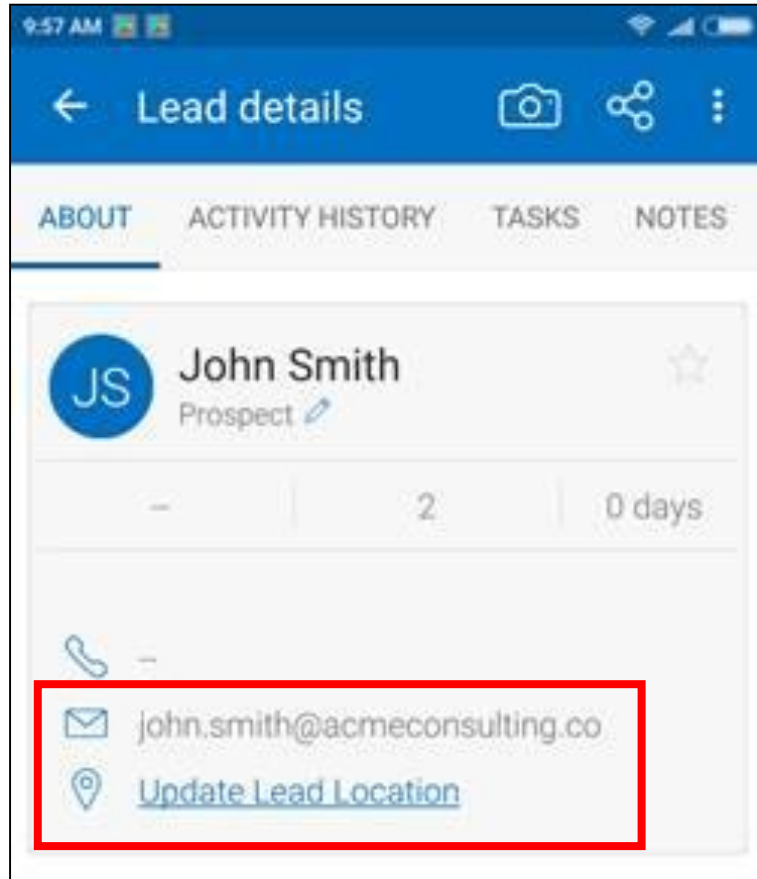

The new versions of LeadSquared Android app (version 5.2) & iOS App (version 2.4) are now available in the Play Store and App Store, respectively.

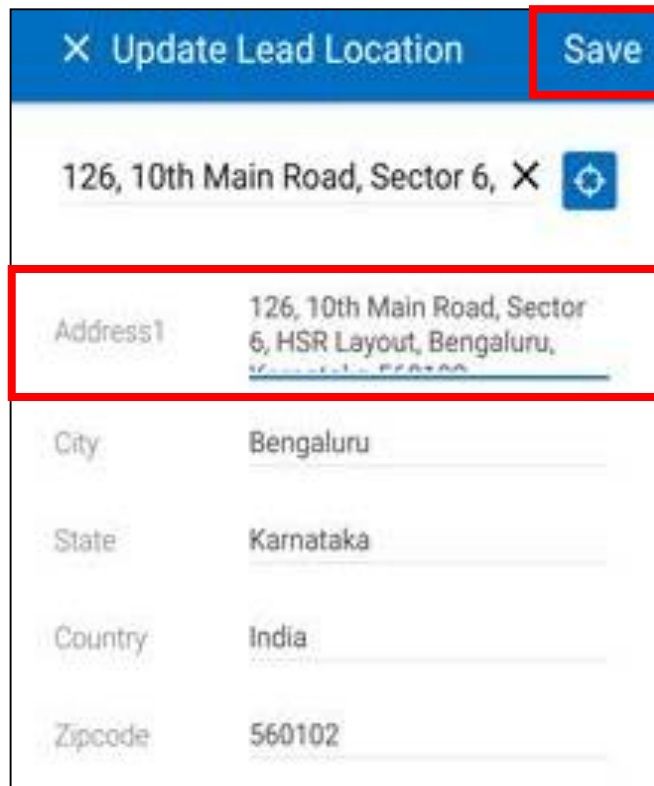

1. Update Lead Location

- You can now '**Update a Leads Location**' i.e. their **address** while visiting the lead itself.
- The app detects your current location, wherever you are and updates the leads 'Address' field accordingly

2. How to use it:

- For leads who DO NOT have any addresses already present, you will be able to see an 'Update Lead Location' link on the Leads vCard in the Leads Details Screen
- Alternatively, for leads who already have address fields present, you can click on the More i.e. 3 Dots icon on the top right and use this feature.

× Update Lead Location **Save**

- When tapped your current location will automatically be detected by the device and you can edit or change the address captured.
- To change the address you can either, 'Search' via the search bar for the leads location or have your location detected again by clicking on the detect button to map it to the lead.
- Once you're done, you can tap on the save & you'll be taken back to the lead details screen with the address set.
- The set location appears as a **link on the vCard**, through which you can view the lead on your **Google Maps App**.

- You can also do this while 'Adding/Editing a Lead'

A screenshot of a mobile application's search results screen. The header is blue with a back arrow, the text 'mantri cl', and a close 'X' icon. Below the header, there is a list of four search results, each with a title and a truncated address. At the bottom, there is a dark navigation bar with three tabs: 'cl', 'clients' (highlighted in green), and 'class'.

Location History Report

1. My Location History Report

With this report you can: track your route on the go, the distance you've travelled and the activities you've posted along the way.

To view this:

- Through the menu navigate to 'Reports -> User Productivity Reports -> My Location history'
- When tapped you'll be opened to the Map view tab where you can see your route, check in – check out locations and the activities posted from different places.
- To view the details of the Activity posted simple tap on any of the blue pins
- To view the your location history details : Tap on the List view tab on the right
- Filter your view by 'Date' through the top right icon. By default, you will be able to see 'Yesterday's' location history.
